# The Story

NATURES Collection stands for timeless design and handmade quality crafted from natural organic and authentic materials. We are distributors, manufacturers, advisors and designers – and we do it all with a deep love for our sector and key materials.

Through our commitment to the design and production of fashion and interior products with an international appeal, we strive to make brilliant design and style accessible to the largest possible audience. Inspired by the New Nordic Living and with roots deeply grounded in the heartland of Denmark, we seek to bring Nordic design and inspiration to our customers around the world.

At NATURES Collection, we take pride in developing all of our designs ourselves, from first sketch to finished product. Our products are designed in-house and sold through a growing network of distributors in more than 70 countries throughout the world covering Europe, the Middle East, North and South America, Africa and Asia. We hand-pick the best suppliers from across the world for our production and we continuously ensure that quality is never compromised.

We only work with materials that live up to our standards of quality, image and sustainability and every item is checked extensively in look and feel before reaching the shelves.

At NATURES Collection, we combine the best materials with a proud tradition of craftsmanship and each product tells its own unique story. Our products may vary in expression, but never in durability, quality or originality – and we are certain that you will recognise these efforts when touching, feeling and experiencing the quality of NATURES Collection. We simply live, breathe and dream natural products.

In our world, your home reflects who you are and only deserves the best - and good vibes and products should always surround you. Products produced by NATURES Collection are designed with the ambition of creating lasting value. In other words, our products are made to be used. In fact, we believe that our products only get more beautiful the more they are used.

We deliver warmth, charm and soul and our products will add an extra dimension to your wardrobe and house, regardless how you choose to style it.

Whether you are seeking the luxurious and exclusive, the carefully crafted, the graceful and minimalistic, the loud, the rebellious, the best quality or simply all of the above, NATURES Collection is here for you.

## WE. LOVE. SHEEPSKIN

When reading this catalogue you might get the impression that we are “totally in love with sheepskin”. And if you asked us, the answer would be.... YES! And let us tell you why.

**We will start from the very beginning:**

The process begins with one of the most important factors – selecting raw material of the very best quality. We source sheepskins from many different areas of the world: Iceland, The UK, Argentina, Australia, New Zealand and Tibet. Though the skins are very different, they all have one thing in common. Sheepskins are by-products of the meat industry and the sheep are raised for the purpose of food – not for their skins.

When sourcing the raw material, we work together with local experts, who recognise and appreciate the true value of excellent quality and sustainable production. This way we ensure that we create the proper foundation for the rest of the production process.

After selecting the raw materials, the skins are carefully tanned, processed and manufactured into various products that you will find in this catalogue. Our products are manufactured in countries, where there is a long tradition for wool, fur and leather production. The tradition for these kinds of production processes has been passed on from generation to generation and this long-term experience secures the standards of our high-quality demands.

When production is complete, the products are shipped to our warehouse in Denmark for the final quality inspection, before being sent to our customers around the globe.

We are deeply committed to supplying you with the world's finest sheepskin.

# Icelandic Sheepskin Short-Wool Seat Covers

*Born in the wild and roam freely in the Icelandic landscape...*

Centuries of adaptation to the Icelandic landscape and climate has resulted in a unique wool-texture. The long hair protects the sheep's skin from moisture while the short hair keeps the animal warm.

Featuring the long, shaggy look and feel that Icelandic sheepskin is renowned for, it is sure to bring delight both in an aesthetic and practical sense. The wool's slight roughness gives the skin a particularly beautiful appearance, making it perfect for decoration both indoor and outdoor. It is completely up to you how to use the Icelandic sheepskin, as the possibilities are virtually endless. The skin looks especially luxurious because of its composition and thus can bring a nice touch into your home.

# Icelandic Sheepskin Long-Wool Seat Covers

*Incomparable quality from the Nordic island country in the North Atlantic Ocean...*

Icelandic long-wool sheepskin is known for its long, smooth wool that reaches up to 20 cm in length. This long wool gives the sheepskin an especially natural and rustic appearance and is the result of the adaptation to the rough Icelandic climate with strong winds, rain, hail and snow.

The natural colour does not fade when exposed to direct sunlight, giving you the option to use the sheepskin both inside or outside. Whether you are looking for a warm and cosy sheepskin to provide some comfort during the cold winter months, or if you are looking for a sheepskin to prolong a cosy summer evening outside, the Icelandic long wool sheepskin seat cover is a great way to achieve both.

A large, fluffy white sheepskin rug is laid out on a light-colored wooden floor. The rug's texture is very soft and voluminous, with long, wavy fibers. The lighting is even, highlighting the natural sheen and depth of the wool. The wooden floor beneath the rug shows a clear grain pattern.

# New Zealand Sheepskin The Long-Wool Rug Collection

*NATURES Collection's New Zealand Sheepskin – Simply the World's Finest...*

What characterises the long-wool New Zealand sheepskin is its density and natural sheen. One of the main reasons why our New Zealand sheepskin rugs are so soft and gorgeous to look at, is the way the animals are raised. They are born in the wild and live an undisturbed life in the amazing New Zealand landscape.

The long-wool collection consists of beautiful longhaired sheepskins in a great variety of sizes and shapes. Whether you are on the lookout for a classical natural hue, the trendy colour of the season, a fun and powerful skin or a pastel-coloured addition to your favourite chair you will find it in this collection.

Use the long-wool sheepskin in a chair, sofa or on the floor.

# New Zealand Sheepskin The Short-Wool Curly Rug Collection

*Wonderful sheepskin rugs from New Zealand...*

Curly New Zealand sheepskins are known for their short and robust wool fibres and small curls. The curly wool is clipped to a uniform height transforming them into a rare and stylish chair, sofa or floor covering.

As the skins come from mature animals, they are generally wider than lambskin rugs.

A Curly New Zealand sheepskin gives a luxurious touch to any type of interior and can be used both indoors and outdoors. The curly short-wool collection gives you a wide range of sizes, shapes and colours that can be used in countless ways: in a chair, your sofa or on the floor.

# Finnish Reindeer Hides

*In Lapland, the northernmost part of Finland, 100,000 reindeers graze the fields...*

Our reindeer hide rugs are high quality products and incredibly soft to the touch. The hides are aesthetically beautiful, making them ideal for a variety of indoor and outdoor purposes.

A reindeer hide from Finland can bring a wonderful Nordic charm to every home. Hanging decoratively on the wall or over an object, these hides fit perfectly into any room with a Northern charm. Also in the office, such a hide can be a wonderful piece of decoration.

As with all our natural products, reindeer hides have not been altered and no two reindeer hides look exactly the same. Each hide has its own individual character, giving the hides a touch of exclusivity.

Please consider that no matter the size of the reindeer hide, they are decorative pieces that should (ideally) not be stepped or sat on.

A large, dark grey, textured pouf or bean bag chair is the central focus of the image. It has a thick, shaggy texture and is positioned on a light-colored wooden floor. In the background, there is a white wall with vertical slats and a small wooden table with a stack of books on it. The text "Poufs & Bean Bags" is overlaid on the right side of the pouf in a light-colored, serif font.

# 100 % Natural Products are 100% EASY-CARE! We promise.

Natural wool- leather- and fur products are very easy to take care of. The fibres' unique structure even repels dirt and gives a natural durability and robustness.

Even so, we recommend you read below care instructions before taking your NATURES Collection product into use. You will always find individual care instructions on any NATURES Collection product and you are more than welcome to contact our team for further assistance or questions.

Below you will find some general care instructions and a few tips&tricks to take care of your NATURES Collection product. Firstly, let us give you three simple rules to follow:

1. Vacuum, shake or brush your product regularly
2. Avoid direct sunlight for dyed products. This way you will avoid UV damage or fading
3. Attend to stains and spills as promptly as possible

Regular vacuuming will help to maintain the fluffy wool- and fur fibres. Please remember always to choose the lowest suction level to avoid any unnecessary damage. Products with longer wool might also benefit from a brushing occasionally with a wire brush. Please ask the NATURES Collection team to supply you with one.

Small stains and spills can mostly be sponged off with a damp cloth and a little bit of lukewarm water. If not, please follow the care instructions on your product or contact our team. When dealing with stains and spills it is very important that you attend to the damage as promptly as possible, as wet stains are much easier to deal with than dry stains. Finally, please remember that direct sunlight, because of UV radiation, is a strict NO! for dyed products. For all natural colours you are more than welcome to put it in the sun.

We wish you the very best luck with your NATURES Collection product – we are sure that you are going to love it. We do!
