NATURES
COLLECTION

The Story

NATURES Collection stands for timeless design and handmade quality crafted from natural organic and authentic materials. We are distributors, manufacturers, advisors and designers – and we do it all with a deep love for our sector and key materials.

Through our commitment to the design and production of fashion and interior products with an international appeal, we strive to make brilliant design and style accessible to the largest possible audience. Inspired by the New Nordic Living and with roots deeply grounded in the heartland of Denmark, we seek to bring Nordic design and inspiration to our customers around the world.

At NATURES Collection, we take pride in developing all of our designs ourselves, from first sketch to finished product. Our products are designed in-house and sold through a growing network of distributors in more than 70 countries throughout the world covering Europe, the Middle East, North and South America, Africa and Asia. We hand-pick the best suppliers from across the world for our production and we continuously ensure that quality is never compromised.

We only work with materials that live up to our standards of quality, image and sustainability and every item is checked extensively in look and feel before reaching the shelves.

At NATURES Collection, we combine the best materials with a proud tradition of craftsmanship and each product tells its own unique story. Our products may vary in expression, but never in durability, quality or originality – and we are certain that you will recognise these efforts when touching, feeling and experiencing the quality of NATURES Collection. We simply live, breathe and dream natural products.

In our world, your home reflects who you are and only deserves the best - and good vibes and products should always surround you. Products produced by NATURES Collection are designed with the ambition of creating lasting value. In other words, our products are made to be used. In fact, we believe that our products only get more beautiful the more they are used.

We deliver warmth, charm and soul and our products will add an extra dimension to your wardrobe and house, regardless how you choose to style it.

Whether you are seeking the luxurious and exclusive, the carefully crafted, the graceful and minimalistic, the loud, the rebellious, the best quality or simply all of the above, NATURES Collection is here for you.

ART OF NATURE

A soft, comfy & playful collection inspired by the organic shapes from nature...

Playful Elements
Natural shapes and textures

New Zealand Cushion

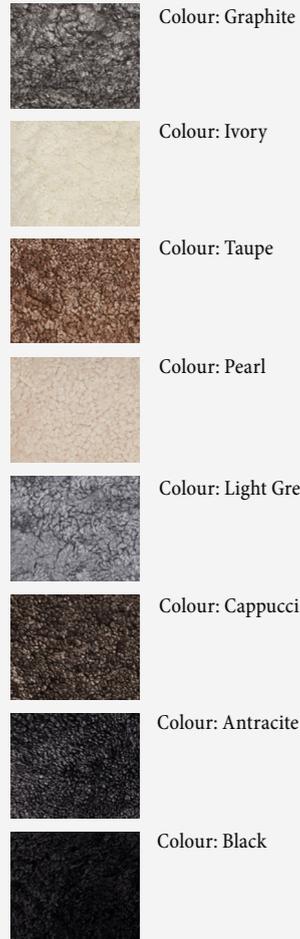

The Cushion Collection

We are excited to introduce you to our "Playful Elements" collection of cushions in beautiful, creative and untraditional shapes. The collection is inspired by elements of the earth, corals of the sea and the organic shapes from nature. Bring our playful collection into your home and explore the many possibilities. Use the Playful Elements in your couch, on the floor, bench or in the bedroom. Playful Elements fits into any interior.

The organic shapes of the cushions are very decorative and creates a cosy but playful environment even when they are not in use. Invite your guests in to a creative, nordic and modern home with our Playful Elements.

Dependent on the design, the playful cushions are made in long wool or short wool New Zealand sheepskin or a combination of both. One of our designs can also be made in moccasin sheepskin.

We have added new colours to our cushion collection. The new colours are the wonderful colours from the coral collection. These colours match the original, classic colours very well. The cushions are made in short wool New Zealand sheepskin which makes their coral colouring exceptionally beautiful. Take the cushions with you and use them in your living room, chairs or couch.

These cushions are pretty, lovely and comfortable and you will love their company at any time.
