

# Benefits of Using SuitePad's In-Room Tablets

## Digital Guest Directory

### Improve Processes

SuitePad **simplifies daily work processes** for the front office staff because:

- it can be updated easily with just a few clicks in the backend
- it serves as an easy booking and reservation tool

### Improve Guest Satisfaction

SuitePad **increases guest satisfaction** by:

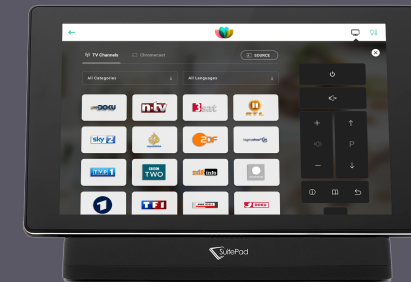

- acting as a 24 hour information platform, online hotel shopping portal, booking platform, and entertainment device
- providing a clear and initiative way of communicating with international guests

### Increase Revenues

SuitePad enables you to **increase revenues with up and cross selling** and generate cost savings by:

- serving as an in-room platform for promoting hotel services
- allowing guests to take control of their daily housekeeping service

## TV Remote Control

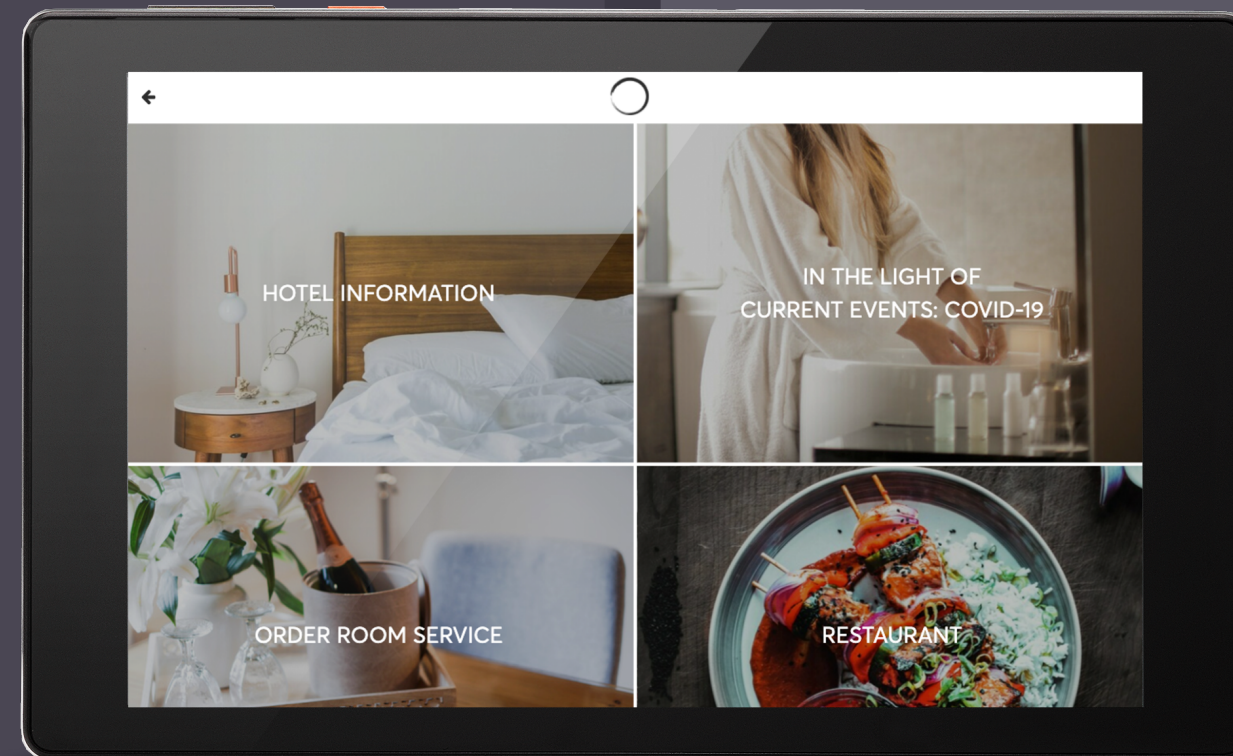

### Easy to clean

SuitePad TV Control helps ensure **in-room cleanliness**. The tablets are simple to keep clean with no nooks and crannies where bacteria and viruses can linger. There is also no need to replace batteries.

### Replaces outdated technology

SuitePad TV Control **replaces outdated technology**. Offer your guests an in-room entertainment experience that's worthy of the 21st century.

## Hotel Room Phone

### Replaces outdated phones

SuitePad Phone replaces outdated and rarely used hotel room phones.

### External & internal calls

With SuitePad Phone, guests can easily make internal and external calls using their in-room tablet. As with classic hotel telephone systems, calls made within the hotel via the hotel WLAN are free of charge.
