

# SuitePad Tablet

Digital Guest Communication  
in the Hotel Room

## DIGITAL GUESTBOOK & ENTERTAINMENT

The SuitePad tablet combines the digital guest folder, travel guide, room service menu, TV remote, telephone, and much more, all on one easy-to-use device. Guests have all the entertainment options they could wish for including magazines, newspapers, internet access, on-demand video, digital radio, and plenty of games at their fingertips.

## REDUCE COSTS & OPTIMIZE PROCESSES

All content is controlled from a central location and can be updated in real-time. This saves time, paper, and labor and printing costs. Our Green Option feature is another way to save - guests can unsubscribe from room cleaning at the touch of a button. Our clients regularly refinance the cost of their subscription through this option.

## DRIVE SALES

80% of hotel guests use their SuitePad every day to make restaurant reservations, book services, order room service, access information, or as a multimedia center. Using personalized push messages is a great way to drive sales and boost cross- and up-selling opportunities.

## GUEST COMMUNICATION

SuitePad optimizes communication between hotel guests and staff by offering live chat and quick feedback so you can react to suggestions, praise, or complaints quickly. The integrated telephone function allows guests to make internal and external calls directly from their SuitePad device, ending the need for outdated hotel telephone systems.

# The SuitePad Tablet – Built for the Hotel Industry

The Suitepad tablet combines sleek aesthetics with smooth performance and is specifically designed for the hotel industry.

## Charging Dock

The magnetic charging dock prevents damage to the tablets and ensures they aren't lost in the room.

## High-Quality Materials

The screen is made of high-quality haptic glass to reduce the risk of cracks, while the scratch-resistant aluminum casing ensures the durability of the device.

## Infrared Technology

The built-in infrared blaster enables the SuitePad to be used as a TV remote on any hotel TV set.

## High-Resolution Screen

Available with an 8-inch screen (1280x800px; HD) or 10-inch screen (1920x1080; full HD).

## Optional Branding

Your hotel's name or logo can be placed on the tablet to subtly enhance your hotel's brand in the hotel room.

### SuitePad Increases Your Hotel's Ratings

Guests find SuitePad easy to use due to the multilingual service guide, the up-to-date media services, and the easy-to-use internal and external communication systems.
