## Van Gogh Museum

Vincent van Gogh, known for his painted self-portraits, sunflowers and landscapes, was born in 1853 in the village of Zundert in Brabant. He decided to become an artist at the age of 27. In 10 years he has made all his works, including around 900 paintings and 1100 drawings. Van Gogh was mainly inspired by the vast landscapes and the farming life.

Van Gogh is one of the best known Dutch painters. We call his painting style post-impressionism and Van Gogh is seen as one of the founders of this movement. If you are in Amsterdam, make sure you visit the Van Gogh Museum and immerse yourself in the world of Vincent van Gogh.

## Mauritshuis

Girl with a Pearl Earring is Vermeer's most famous painting. It is not a portrait, but a 'tronie' – a painting of an imaginary figure. Tronies depict a certain type or character; in this case a girl in exotic dress, wearing an oriental turban and an improbably large pearl in her ear.

Johannes Vermeer was the master of light. This is shown here in the softness of the girl's face and the glimmers of light on her moist lips. And of course, the shining pearl.

The illustrations by Lotte Dirks are colourful, cheery, refreshing and now available in IXXI's collection. Lotte's designs create new looks that match each season. Creating something new is Lotte's favourite thing to do!

Lotte finds inspiration for her illustrations from all sorts of everyday items, even from her childhood. She starts every illustration with a pencil sketch and a little paint and then adjusts the colours at a later stage, in Photoshop.

**Bo Lundberg**

The works of the Swedish artist, graphic designer, illustrator Bo Lundberg sometimes seem to come from a different era. His visual work is distinguished by the combination of simplicity, distinct use of color, light abstraction and a good dose of coolness.

Bo Lundberg is the king of icons, architectural icons in particular. The larger metropolises and their most characteristic buildings are often reflected in the images of Bo Lundberg. Of course provided with an extensive range of colours.

## Mareike Böhmer

The German designer and photographer Mareike Böhmer decided in 2016 to work as a freelance artist. Her own graphic works are minimalistic and colourful at the same time. She plays with elements from nature and geometric shapes, which is reflected in her modern visual work. With this, she blurs the line between graphic design and photography.
