DAVID HUME

ACCIAIO INOSSIDABILE PER L'ARREDAMENTO

STAINLESS STEEL FOR INTERIORS

Nello stemma del XIII secolo del Comune di Fabriano è rappresentato un fabbro che lavora il ferro, una attività che si tramanda da secoli nel nostro territorio. Questa sapienza antica di lavorare la materia è stata tramandata fino ai nostri giorni

A blacksmith working the iron on the anvil is shown on the XIII century armorial bearing of Fabriano.

This craftsmanship has been handed over from father to son for centuries. Today, this ancestral knowledge of working with steel continues to be one of the most important traditions of our town.

FINITURA ANTITOUCH: L'acciaio tutto da toccare!

*ANTITOUCH FINISH:
The new steel surface you can touch!*

La superficie dell'acciaio dei nostri articoli è protetta da uno speciale trattamento contro le tracce delle mani e delle gocce. Impronte ed i residui di calcare non sono più un problema e la pulizia diventa estremamente semplice, basta un semplice panno leggermente umido per togliere ogni traccia!

The steel surface of our products is protected by a special treatment against the traces of hands and drops. Prints and limescale stains are no longer a problem and cleaning is extremely simple, just use a damp cloth to remove any mark!
