

# Sweet Cheeks<sup>TM</sup>

## Domestic-style Sugarcane Toilet Roll

## Commercial Sugarcane Paper

# SUGARCANE PAPER FEATURES & BENEFITS

- ✓ Sugarcane is made from the left-over plant after the sugar has been extracted for the food industry
- ✓ Being a by-product makes it even more sustainable than bamboo
- ✓ It's much softer than bamboo due to the short & delicate fibres of the sugarcane plant
- ✓ It breaks down in 4 seconds when flushed, helping to prevent blocked drains
- ✓ It is harvested every 11 months whereas trees take 30 years
- ✓ We cram more paper into smaller cartons to reduce the carbon footprint for deliveries
- ✓ Sugarcane has a 64% lower carbon footprint than recycled paper

# Sweet Cheeks<sup>TM</sup> 2-ply
