ENJOY OUTDOOR LIVING

A woman with long blonde hair is sitting on a modern, light-colored outdoor sofa, reading a magazine. The sofa is positioned on a paved patio area. In front of her is a small, dark-colored coffee table with a wooden tray holding drinks. The background features lush greenery and a modern building with large windows. The overall scene is bright and sunny, suggesting a pleasant outdoor environment.

UNIQUE WATERPROOF FABRIC

No more dragging cushions around! The back of the fabric is coated with a special film made from recycled PET bottles, making the fabric 100% waterproof. The quick dry fabric ensures that after a rain shower you can quickly sit back on your comfortable lounge set.

This unique feature ensures that your lounge set can stand 365 days a year outside.

100% DUTCH DESIGN

Paramount in the design process were comfort and ergonomics.

The furniture has the seating comfort of an indoor sofa but, for Bubalou, comfort means more than just sitting comfortably. Comfort is also no more dragging around with loose cushions and the convenience of a sofa that dries quickly.

Enjoying and relaxing outside on a sofa that feels like a luxurious indoor sofa. Bubalou lets you enjoy the outdoors whenever you feel like it.
