Hello.

WE ARE  
DYACO.  
WE GET  
YOUR GYM  
IN SHAPE

When you choose to work with Dyaco you can be rest assured that you are in safe hands. That's because we've over 40 years of experience in building and kitting out gyms to the praise of customers around the world. With 7 international offices and a global distribution network spreading across 86 countries and more than 130 distributing partners worldwide, we are your perfect fitness partner.

We deliver unique fitness spaces designed to your requirements, whatever shape you throw at us.

Your consultation

# HOW WE CREATE YOUR GYM SPACE

## We get the fit right. Before the fitness begins.

At Dyaco we understand that one size does not fit all and this could not be truer when it comes to fitting out your dream gym, be it large, small, round or square.

Achieving the optimal design and layout for your gym space is crucial. It's so much more than simply filling a space with equipment. We'll ensure that the design, layout, and selection of equipment align perfectly with the needs of your gym and its users. Only when these elements are thoughtfully considered will your gym space operate efficiently for both you and your clients.

With a combined 140 years experience we see ourselves as gym architects starting with consultation then through to design and on approval; installation.

Your equipment

# ENSURING GREAT FORM AND FUNCTION

## Robust precision is our forte.

---

We'll identify the right equipment to sculpt your perfect gym space. Boasting three cutting-edge manufacturing facilities and a formidable global team of a thousand experts, we guarantee that your space will be kitted out with nothing but the most robust products. It's what sets us apart! We can control lead times and manufacturing specifications because we are the architects behind the products. We'll ensure a seamless blend of quality and craftsmanship.

We also have a trusted network of brands so our clients benefit from both choice, state of the art design and quality with commercial grade equipment that's built to withstand the most gruelling of workouts, day in, day out.

# WORKING TOGETHER FOR THE PERFECT FIGURE.

How much does it cost to fit out a great gym?

**While our 30+ years of experience  
lends us a broad understanding,  
each gym is a unique canvas.**

---

But gyms come in many different shapes and sizes. Gym locations will vary so specifications can differ from floor to floor, city centre to rural, specialist facility to corporate environment. Beyond the physical aspects, gym owners and managers can have different aspirations for their facilities.

After discussing your goals and specifying the right equipment for your space and users, we'll provide you with the cost very quickly following our on-site visit.

So, how much does it cost to fit your perfect gym? [Click here](#) for more information.

Your aftercare

# A SOLUTION FIT FOR LIFE

Trust us to turn your fitness vision into a reality, from concept to execution. You'll experience a seamless process with us.

We'll visit your venue, we'll tailor your perfect gym environment with the ideal equipment for your gym users. We'll then manufacture the kit in our own facilities. Then we'll deliver, install and ensure you're ready for business.

But our relationship doesn't have to end there.

**We're committed to your long-term success. We'll help ensure your operational efficiency and in turn the satisfaction of your gym users.**

Our aftercare service is looked after by the same experts who provided you with invaluable advice from day one.

Your satisfaction and ongoing success are important to us, long after install.

**LET'S GET YOUR GYM IN SHAPE.**
