Dometic ProSafe Standard Class room safes	28 – 31

A person with grey hair, wearing a blue bathrobe, stands in a modern kitchen at night. They are looking into an open built-in refrigerator which is illuminated from within. The refrigerator contains various items including a carton of milk, a pitcher of orange juice, and some produce. The kitchen features dark cabinetry and drawers. In the background, a dining table with wooden chairs is visible, and a large window looks out onto a city skyline at dusk. The overall mood is quiet and intimate.

THEIR HABITS THEIR WAY

Keeping a bit of independence is about integrity and pride. It's about being able to have a glass of milk in the middle of the night if we want. To be able to decide for ourselves – it's one of life's small comforts when it means the most.

WELL PROVEN FOR DECADES

DOMETIC REFRIGERATORS AND SAFES FOR HEALTH AND CARE FACILITIES

Dometic is a leading manufacturer of cooling appliances for special applications – with decades of experience in the healthcare sector. Our reference list includes hospitals, retirement and nursing homes, doctor’s surgeries, pharmacies and laboratories.

Dometic Food Grade refrigerators and Dometic Medical refrigerators have been proven thousands of times over, across Europe and beyond. They are not only among the most compact of their kind available in the market, but with the new HiPro Care line, also offer a completely silent food grade cooling solution. With its ProSafe range, Dometic also provides a reliable solution for secure storage of the patients’ or residents’ valuables.

All products for the healthcare sector are manufactured to stringent quality and environmental standards in Dometic’s, certified factories. Our sales and service network spans almost 100 countries and provides personal support to customers and planners on all continents.

RESPONSIBILITY FOR THE ENVIRONMENT

At Dometic, thinking and acting ecologically is an all-embracing process that extends to all levels – from the design of resource-saving, energy-efficient products to sustainable production processes and special recycling measures. You can be 100% sure that all applicable regulations, directives and guidelines are fulfilled.

CERTIFIED QUALITY

- All Dometic Healthcare production plants are certified acc. ISO 9001 (quality management), ISO 14001 (environmental management) and ISO 50001 (energy management)
- All Dometic Healthcare products fulfill the European Union’s product safety and environmental compliance requirements, i.e. Low voltage directive 2014/35 EU, EMC directive 2014/30/EU, RoHs directive 2011/65/EU and F-gas regulation No. 417/2014.

Dometic’s certified production facility at Jászberény, Hungary

DOMETIC PRODUCTS VALUE PROPOSAL

FOR HOSPITALS, RETIREMENT HOMES, SURGERIES AND PHARMACIES

HOSPITALS & CLINICS

Having their own food grade Minifridge and ProSafe in the room gives patients peace of mind and comfort while away from home. They are less dependent on staff for drinks and food and can rest assured that their valuables are safely stored. This, in turn, relieves the staff and cuts on operating costs. Hotel-like amenities can also help hospitals and clinics stand out from their competitors. Medical refrigerators on the station floor provide easy access to daily medications and common prescriptions, which means shorter distances to go for the hospital staff.

Product examples: HiPro Care C60SFS, HC 302 DIN, DS 301 H and MD 363

RETIREMENT HOMES

Dometic food grade Minifridge take up very little space and offer a great deal of comfort. With the introduction of the new HiPro Care line, residents and patients can not only maintain their independence by keeping their favorite food items close to them but also enjoy the serenity of the noiseless environment due to its silent operation. Designed to meet the unique needs of elderly homes and hospitals, it enhances the daily experience of residents and patients while

simultaneously minimizing operational costs for healthcare facilities. Dometic medical refrigerators provide safe storage for temperature-sensitive pharmaceuticals and fast access to “daily essentials”.

Product examples: HiPro Care A30SBI, HC 302 DIN and MD 363

SURGERIES AND PHARMACIES

Dometic medical refrigerators keep temperature-sensitive pharmaceuticals, preparations and vaccines close at hand for immediate access. They provide safe storage at a temperature between +2°C and +8°C. The well organised, illuminated interior with practical drawers and compartments makes for easy handling.

Product examples: HC 302 DIN, HC 502 DIN and DS 601 H

HIPRO CARE

SMALL. SILENT. STRONG.

Dometic HiPro Care minifridges seamlessly blend into the appearance of elderly homes and hospitals. Not only are they highly efficient, with remarkably low energy usage, but they also operate silently, contributing to a peaceful environment. The strong door rack maximizes storage space, improving the functionality of its elegant design. Furthermore, they stand out for their food-grade refrigeration capabilities, designed to accommodate a range of items—from delightful cakes to fresh milk and nutritious fruits—catering to the diverse dietary needs of patients and residents alike.

DOMETIC HIPRO CARE. THE SILENT MINI FRIDGE.

Dometic HiPro Care food-grade absorption minifridges reach an interior temperature of 4°C at up to an ambient temperature of 32°C while being completely noiseless.

Lockable door

EASY CUSTOMIZING WITH BUILT-IN MODELS

Designed for built-in use: BI minifridges are fitted in the factory with a sliding hinge to be fastened to the furniture door to compensate for the differing turning points between the furniture and fridge door. That means the refrigerators can be easily fitted with a front panel to suit your interior design concept.

INSTALLATION TIPS FOR BUILT-IN REFRIGERATORS

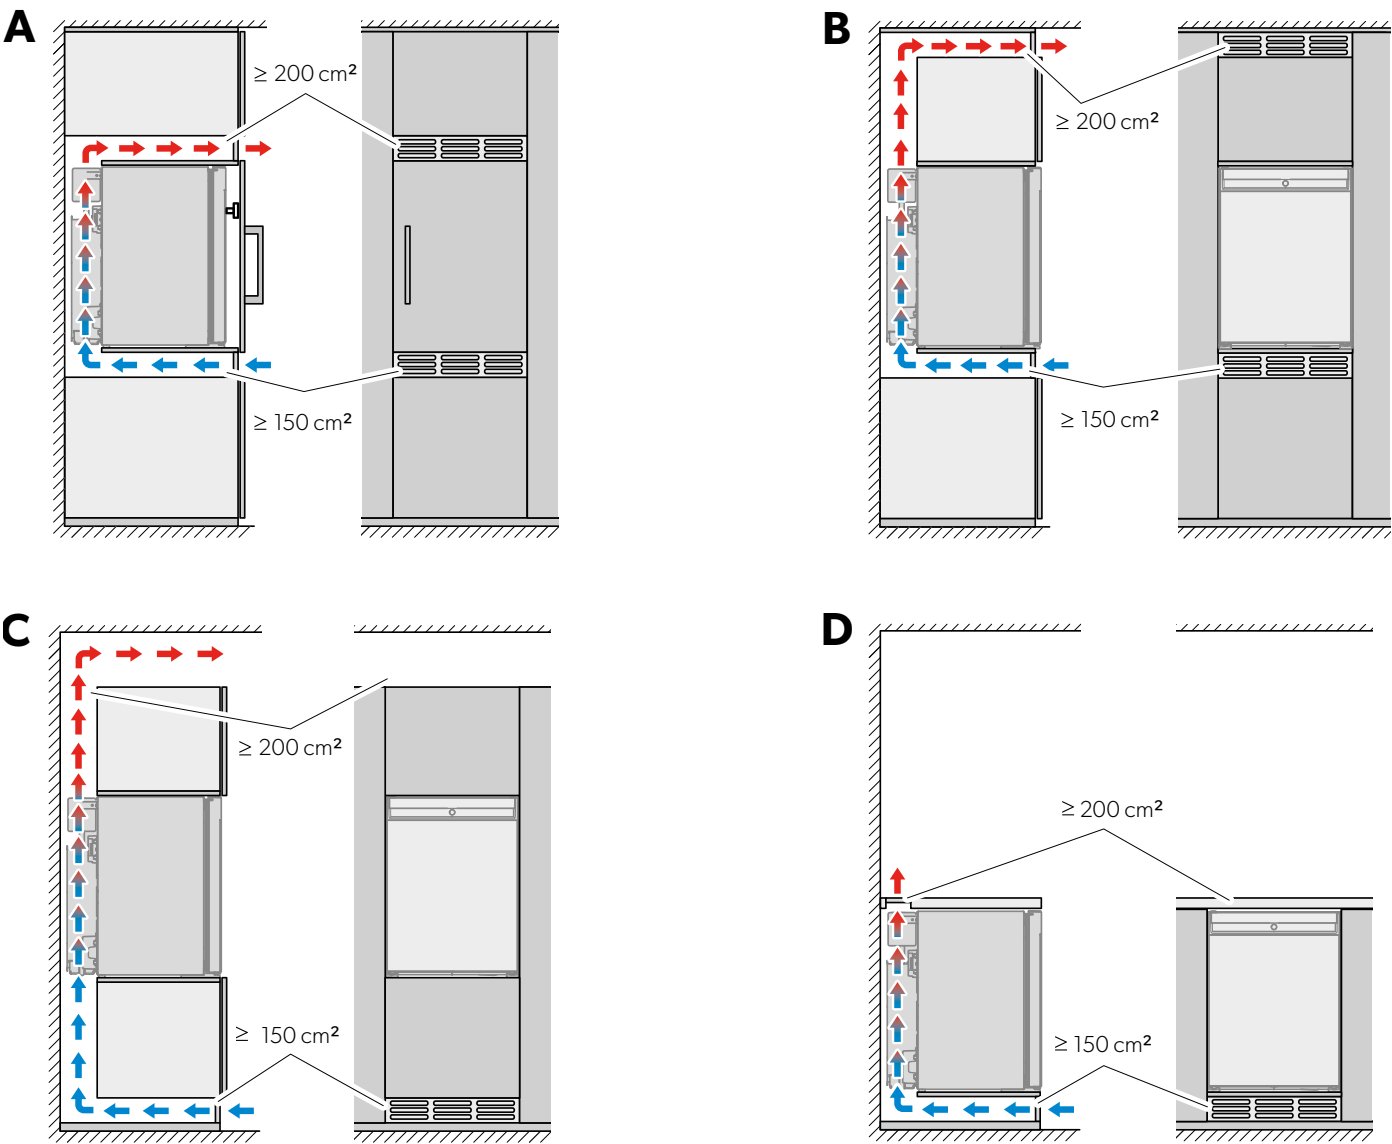

Dometic absorption fridges are equipped with an electrically heated cooling unit which is virtually silent in operation. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the fridge. If you have a free-standing model, sufficient ventilation is provided in most cases. If you want to integrate the fridge into a piece of furniture, however, the following instructions need to met.

Please note that there must be sufficient room for ventilation behind the refrigerator to prevent heat build-up. During installation, make sure that the refrigerator is standing on a stable, level surface, and not directly near a heat source. Ventilation must be provided as shown in the drawings below (A, B, C or D).

You can find all our documents, manuals and guidelines at documents.dometic.com.

VENTILATION GUIDELINES

Important note

Please read these instructions carefully and follow all instructions, guidelines, and warnings included in all our product manuals in order to ensure that you install, use, and maintain our products properly at all times.

By using our products, you hereby confirm that you have read all instructions, guidelines, and warnings carefully and that you understand and agree to abide by the terms and conditions as set forth herein. You agree to use our products only for the intended purpose and application and in accordance with the instructions, guidelines, and warnings as set forth in the product manuals as well as in accordance with all applicable laws and regulations. A failure to read and follow the instructions and warnings set forth herein may result in an injury to yourself and others, damage to your product or damage to other property in the vicinity. Our product manuals, including the instructions, guidelines, and warnings, and related documentation, may be subject to changes and updates. For up-to-date product information, please visit dometic.com.

MEDICAL FRIDGES

The ideal solution for storing heat-sensitive medicine safely at a temperature between +2 °C and +8 °C. Practical drawers enable you to keep the medicine organised and structured. A digital thermometer monitors the internal temperature and stores the highest and lowest temperature for a defined control period.

You can choose between two series with different cooling technologies and quality features:

HC series with powerful, energy saving compressor technology: with integrated temperature display and high-quality, roller based metal drawers (3/4 extension) with plastic front

DS series with noiseless absorption cooling: for normal ambient temperatures, fitted with an external thermometer and plastic drawers with transparent front

QUALITY FEATURES

- Constant cooling performance between +2 °C and +8 °C
- DIN certified medical refrigerators
- High-quality metal drawer with telescopic sliders
- Digital temperature display with memory function
- Audible alarm functions
- Lock included

WHY CONVENTIONAL
HOUSEHOLD REFRIGERATORS
WON'T WORK

Conventional household refrigerators are unsuitable for the storage of insulin, vaccines, heparin products and other heat-sensitive pharmaceuticals. Here are the main reasons why:

- Unable to maintain the required temperature between +2 °C and +8 °C
- Temperature can rise to over +10 °C during defrosting phases
- Temperature data cannot be checked and documented
- Serious health risks for patients
- Liability risks for hospitals

A medical refrigerator keeps you on the safe side.

DS SERIES MEDICAL REFRIGERATORS

NOISELESS ABSORPTION COOLING

Well proven over the last decades, DS series medical refrigerators are ideal for safe storage of insulin and other heat-sensitive pharmaceuticals at a temperature between 2 °C and 8 °C. The drawers allow for an organised storage of pharmaceuticals. The external digital thermometer keeps the interior temperature under control.

- Noiseless absorption cooling unit
- Fuzzy Logic technology for low power consumption
- Factory fixed temperature setting
- LED interior light for user convenience
- Door lock for secure storage
- Drawers with flexible compartments for organized storage

HC SERIES DIN MEDICAL REFRIGERATORS

DIN VERSIONS

Medical refrigerators have to meet the very highest demands, and they have to be absolutely reliable. To be on the safe side, use equipment that complies with the DIN 58345 standard for pharmaceutical refrigerators, because it will meet the expectations for professional storage to the full extent. In addition to standard features like ventilated cooling and a safety lock, our DIN certified

equipment also provide a visual and audible warning function in case of temperature deviations. Thanks to an integrated battery the warning function (visual + audible) will even be maintained for at least 12 hours if the power supply fails. On top of that, DIN refrigerators are fitted with a potential free contact for alarm transmission.

Complies with DIN 13277 and Ö-Norm K2040

- Complies with DIN 58345 and Ö-Norm K2040
- Keeps heat sensitive medicine between +2°C and +8°C
- Integrated fan for reliably constant temperature
- Features an audible warning system if the door is open for more than 20 s
- Compressor cooling technology
- Convenient, robust slide-out drawers

ADDITIONAL DIN FEATURES

- Temperature variation alarm
- Power failure alarm
- External, potential free contact for alarm transmission
- AC powered display (no batteries)

HC SERIES MEDICAL REFRIGERATORS

NON DIN VERSIONS

Based on efficient compressor cooling, HC series medical refrigerators are amazingly powerful and energy-saving. Moreover, the models in the HC series are fitted with some useful extra features. High-quality, roller based metal drawers with 3/4 extension allow for convenient handling in everyday use, and the thermometer is integrated in the door.

- High-performance compressor cooling – even at high ambient temperatures

SAFETY & SECURITY

FROM STANDARD TO PREMIUM

The range of Dometic ProSafe models

Security is an essential requirement for patients, and can be one of the of the main reasons for choosing or discarding a care facility. The Dometic Group aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe range which goes one step further in terms of design, functionality, technology and security. This proSafe range has a very modern design with a color display, an illuminated keypad, the latest anti-tampering system and a new website platform which offers the possibility to

operate the safe with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety.

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort
- Battery level check

Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

Anti-Tamper system

With the anti-tampering system, Dometic offers a unique security feature for their models. All anti-tampering manipulation attempts are recorded in the electronic of the safe and can be tracked back at any time.

REOS code

REOS stands for Dometic's Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised facility staff.

Premium iAudit

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where

Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

PREMIUM CLASS IN-ROOM SAFES

SAFE TO SAY IT'S MORE CONVENIENT

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class proSafe, the room becomes a perfectly private haven for the resident. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customisable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch keypad make operation easy. And a Premium Class proSafe also

- LED interior light
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Remote Emergency Opening System (REOS 2.0)
– ultimate security and user comfort (optional)

breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

WIDE CHOICE OF MODELS AND SIZES

Dometic ProSafe MD series Premium Class safes are available in various sizes to suit different capacity demands, interior designs and installation conditions. Sizes range from 8.2 to 29 litres.

Batteries included
Dometic safes come ready to use.

Plug
Optional inside plug to charge mobile devices.

Automatic opening
Safe door opens automatically.

Fixing kit
Optional fixing kit for secure fastening.

DOMETIC STANDARD CLASS SAFES

Robustly made with user-friendly features and functions

It puts residents’ mind at rest to have a safe place for their valuables. Providing a secure space for important or valuable objects is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in the room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your residents a high level of security thanks to their robust construction. Their simple and intuitive usability provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening
- Wide choice: vertical, horizontal, top-opening

DOMETIC PROSAFE MDL – VERTICAL OR HORIZONTAL

MDL 408

MDL 193

With quality and security at their core, these value-for-money in-room safes significantly enhance the security of existing rooms.

- Value-for-money solution
- Vertical or horizontal model – both with 18.4 litres capacity
- Easy installation inside a cabinet or on the wall
- Emergency opening with master code or master key
- Battery-low warning alerts users to change battery

DOMETIC PROSAFE MD 310 / 390 / 450 SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or master code (depending on the model).

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or master code

DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class range, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests’ valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED inside light for standard, master key and master code opening possibility in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

Easy operation

The operation is easy to understand and explained via the pictogram.

Handle

Integrated handle for easy opening and closing.

Light the way

Standard LED interior lighting.

Soft close

Muted door closing.
