# PIONEERING THE HOTEL INDUSTRY. AGAIN.

## GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated more than over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line Dometic HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The HiPro Evolution range is just that. Boasting precise temperature control, world-class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures chromate-free absorption technology checks in for a clean, sustainable future in your hotel.

### Dometic HiPro minibars The next generation of minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

#### Sustainability checking in

Sustainability means doing more with less. It's a philosophy we put into action with outstanding energy efficiency and the first chromate free minibar range on the market. A sustainable minibar is a smart minibar. The HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference in OPEX for hotel owners.

**Read more on this on p. 12**

### Dometic drawer minibars Unique design, outstanding construction

Our drawer minibars are a class of their own in terms of design, size and functionality. Noiseless cooling, convenient slide-out access.

**Read more on this on p. 20**

# SUSTAINABILITY AND EFFICIENCY: RECOGNIZED EXCELLENCE

At Dometic, we are proud to lead the way in sustainability, efficiency, and innovation in the hospitality industry. Our efforts have been widely recognized with several prestigious awards and certifications.

## MOST EFFICIENT 2025 – ENERGY STAR®

Our minibars have been awarded the “Most Efficient 2025” label by ENERGY STAR® in the USA. This accolade reflects our commitment to creating products that deliver exceptional energy performance, helping hoteliers reduce operating costs and environmental impact.

## LEADER LEVEL – MINDCLICK SUSTAINABILITY ASSESSMENT PROGRAM (MSAP)

The MindClick MSAP evaluates suppliers based on their environmental and social performance. Our minibars achieved the highest “Leader Level” rating, acknowledging our excellence in hotel impact, end-of-use considerations, packaging, and sustainable production practices.

## DOUBLE STAR AWARD

Our Dometic HiPro minibar generation was voted gold in the Food & Beverage category of the Star Awards, a recognition chosen by readers and decision-makers in the hospitality sector. The Dometic MoBar also earned gold in the Technology category, reinforcing our reputation for combining innovation and functionality.

## PLUS X AWARD

The Dometic HiPro Absorption minibars have been honored with the prestigious Plus X Award, celebrating excellence in High Quality, Design, Ease of Use, Functionality, and Ecology. As the first chromate-free absorption minibar, this innovation is a milestone in sustainable design and performance.

# WHY IT MATTERS

Each recognition we receive drives us further in our mission to provide high-quality, energy-efficient, and sustainable solutions that exceed guest expectations. These achievements inspire us to continue setting new standards for sustainability and operational excellence in hospitality.

NEXT GENERATION MINIBARS

# DOMETIC HIPRO MINIBARS

# WE DEVELOPED HIPRO WITH HOTEL GUESTS IN MIND

A well-stocked minibar is an expected and appreciated hotel room feature for every hotel guests. Let’s have a deeper look at some outstanding features we offer to the market with the HiPro minibar generation:

Dual LED lights (Evolution)

Adjustable shelf positions to fit a wide range of products

Ability to remove shelves at only 90° degrees door opening angle

Door racks fit 1.5L bottles

Aluminum handle (Evolution)

Unique, modern design with full glass door option

Transparent door racks

1

**Lower energy consumption**  
The HiPro range reduces energy consumption by up to 50% versus older models.

2

**Premium guest experience**  
The HiPro line is an attractive and sales-promoting feature in the guest room.

3

**Improved cooling power**  
Improved cooling capabilities with updated and optimized functionality.

4

**A strong partner**  
With more than 50 years of experience and more than 6 million installed units; we are a proven partner.

Many business travelers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day’s meeting while burning the midnight oil. That’s why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion, while getting ready for a fun night out, or perhaps waking up with a need to quench the thirst.

# VENTILATION GUIDELINE

To ensure **optimum cooling performance** with minimum energy consumption, several basic principles need to be followed when installing a minibar. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the minibar.

There must be **sufficient ventilation** here to prevent a build-up of heat. The free ventilation space for the HiPro Absorption and Compressor for incoming air should be at least 24 in<sup>2</sup> (150 cm<sup>2</sup>) and outgoing air at least 31 in<sup>2</sup> (200 cm<sup>2</sup>), while for the HiPro NTE the space for the incoming and outgoing air should be at least 31 in<sup>2</sup> (200 cm<sup>2</sup>).

The free ventilation space for the DM50C Compressor and DM20 Thermoelectric for incoming and outgoing air should be at least 31 in<sup>2</sup> (200 cm<sup>2</sup>), while for the DM50NTE Thermoelectric the space for the incoming and outgoing air should be at least 62 in<sup>2</sup> (400 cm<sup>2</sup>).

The distance from the rear of the minibar to the rear wall of the furniture must be at least 1 inch (2 cm). When installing the minibar, ensure that it is standing on a stable and horizontal surface, and not directly near a heat source.

You can find all our documents, manuals and guidelines at [documents.dometic.com](https://documents.dometic.com).

- The minibar must be placed on a surface that is level in both directions
- There should be a 1 inch (2 cm) clearance to the wall
- Ventilation must be provided as shown in the drawings below (A, B, C or D)
- The entire cooling unit should protrude into the ventilation duct as shown below
- Air passing through the duct must not be warmed up by any source of heat

## HIPRO MINIBARS

# FROM STANDARD TO PREMIUM

## THE SERIES OF DOMETIC PROSAFE MODELS

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic GROUP, aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe series which goes one step further in terms of design, functionality, technology and security. This proSafe series has a modern design with a white LED display, an illuminated keypad, the latest anti-tampering system and

a new website platform which offers the possibility to operate the safe with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety and contemporary design

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort
- Battery level check

### Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

### Standard Class

High security level combined with easy operation for perfect comfort and convenience.

## PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

### Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door almost impossible to pry open.

### REOS code

REOS stands for Dometic’s Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

### Premium iAudit

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where Dometic’s Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

### Standard Audit

All operations effected on a safe must be documented. Includes Audit log for the last 100 events.

### SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

# PREMIUM CLASS IN-ROOM SAFES

## DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class proSafe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customizable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch

keypad make operation easy. And a Premium Class proSafe also breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the antitampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

- LED interior light
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Remote Emergency Opening System (REOS 2.0)
  - ultimate security and user comfort (optional)

## WIDE CHOICE OF MODELS AND SIZES

Dometic ProSafe MD series Premium Class safes are available in various sizes to suit different capacity demands, interior designs and installation conditions. Sizes range from 8.2 to 29 liters.

**Batteries included**  
Dometic safes come ready to use.

**Automatic opening**  
Safe door opens automatically.

**Fixing kit**  
Optional fixing kit for secure fastening.

# DOMETIC STANDARD CLASS SAFES

## ROBUSTLY MADE WITH USER-FRIENDLY FEATURES AND FUNCTIONS

It puts hotel guests’ mind at rest to have a safe place for their valuables while travelling. Providing a secure space for important or valuable objects yet it is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in a guest room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your guests a high level of security thanks to their robust construction. Their simple and intuitive usability also provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening
- Wide choice: horizontal or top-opening

# DOMETIC PROSAFE MD 390 / 450 SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or by an external emergency opening device

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or Master code.

# DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class series, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests’ valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED interior light, master key and master code in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

### Easy operation

The operation is easy to understand and explained via the pictogram.

### Handle

Integrated handle for easy opening and closing.

### Light the way

Standard LED interior lighting.

### Soft close

Muted door closing.

# INTRODUCING THE DOMETIC DRAWBAR

## TAILORED TO YOUR TASTE

Re-creating the feeling of a perfect evening out in the comfort of your own kitchen means getting the details right. Like un-corking a good wine and serving it at the optimal temperature, at just the right moment. The Dometic DrawBar blends elegantly into your hotel room and adds a unique finishing touch to your property. It’s an enticing detail that elevates every glass and turns it into a memorable experience.

## KEY FEATURES

### A PERFECT WINE EXPERIENCE

For optimal serving temperature, select one of five pre-set options, professionally tailored for different types of wine: 41, 46, 52, 57 or 63 °F.

### COMPACT WINE STORAGE

The Dometic DrawBar is always close at hand and fits up to five bottles, from long Riesling to large Champagne.

### CONTROLLED STORING ENVIRONMENT

Powerful and efficient compressor cooling technology with electronic controls. Humidity-control tray further improves the storing environment.

### DESIGNED TO STAND OUT

Soft illumination elegantly showcases your wine bottles and adds a touch of luxury to your kitchen.

### PERFECT FIT

Glass or custom front panels ensure a refined and coordinated finish to your kitchen design.
