# ABOUT US

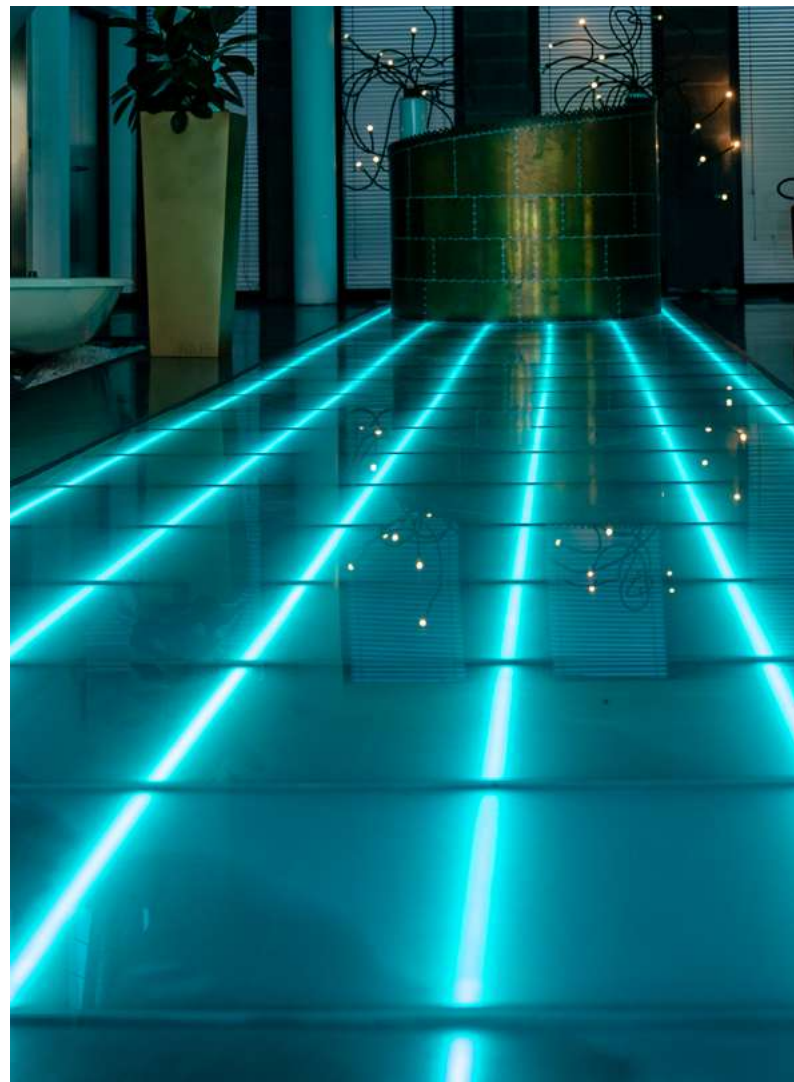

Delta Group was born from the desire of its shareholders and employees to offer the market all the experiences gained over many years of work.

The original core of the group consists of Delta Contract, which operates in the world of Bespoke lighting in all its expressions and have been present for over 35 years in the various Italian and international lighting markets, specializing in lighting fixtures for cruise ships, but also in public and private contracts, casinos, hotels, retail and offices.

Within our group, we have the expertise of Delta Integrator, which focuses on electrical systems and related technical maintenance for both naval and civil. We consider ourselves as a versatile collaborator and we are able to offer a diverse solutions for a wide range of products and services.

Strengthened by the long experience in this sector, we are eager to satisfy the demands of every client's needs like most prestigious design studios around the world.

We have a range of high quality architectural and functional products both for indoor and outdoor use, with a strong advocacy for implementing new technologies and dedication to environmental sustainability without compromising quality and its economic aspect.
