

Art

For urban spaces

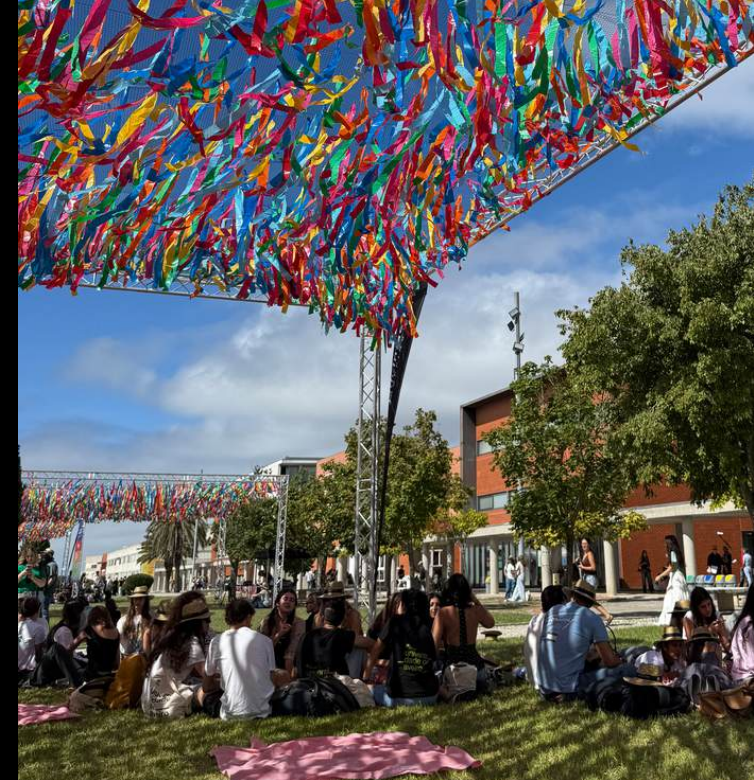

We create decorations for cities, spaces, and events. Designed to attract visitors, boost businesses, and transform places into unforgettable destinations.

COOLER SPACES. MORE PEOPLE. BETTER RESULTS.

We don't just create beauty, we reduce heat.

Our installations generate shade that lowers temperatures and makes streets more comfortable, walkable, and active.

OUR MISSION: COLOR THE WORLD!

We believe that art has the power to transform spaces and touch lives. Through vibrant colors and creative installations, we create experiences that provoke positive reactions and lasting feelings.

MADE BY HUMANS

All our products are special and unique.
Made to bring happiness to people, coloring life! 🌈

By choosing to use Impactplan products, you are opting for a sustainable work of art that mostly uses the labor of local artisans, saving energy resources and contributing to the development of the local economy.

WHAT VISITORS SAY

Daniel Bideau

"Full of colors and smiles. Refreshing for the city of Coral Gables"

Tânia Domingues

"Love your installations in Paris! Simply amazing to see the street pink."

Rita Fernandes

"The truth is, it was a really hot summer day but under the umbrellas it was very cool. Impressive how much color and life it brought to the city."

DOTS INVASION

.P

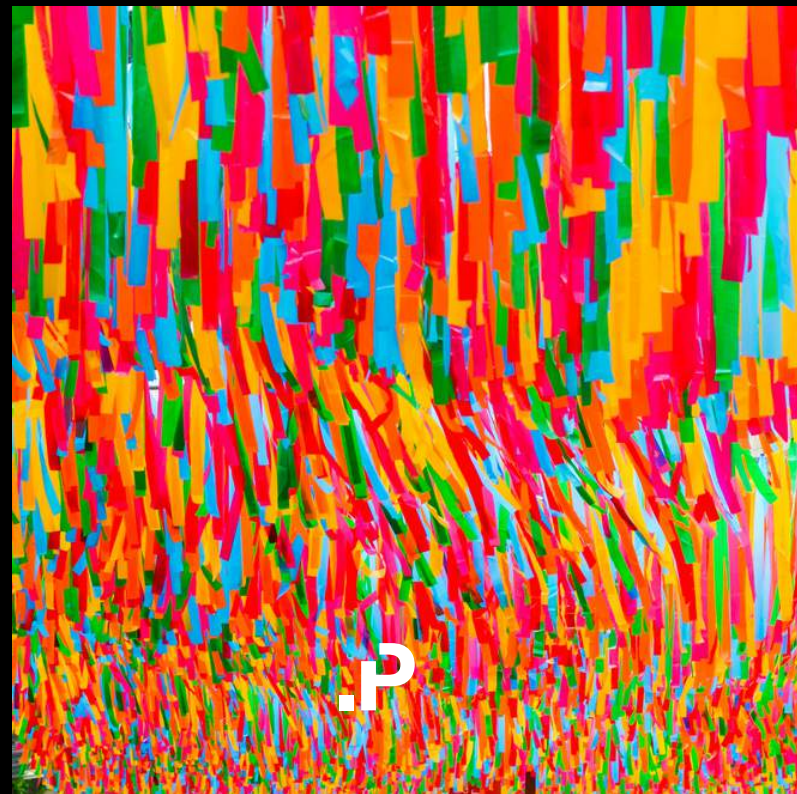

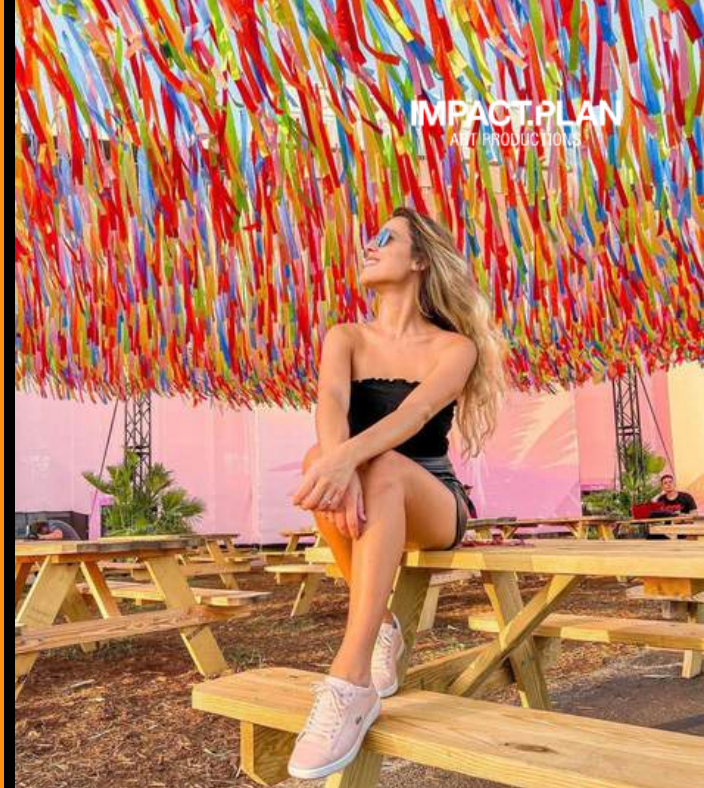

A vibrant street scene in a European city, likely Paris, featuring a massive art installation of colorful, translucent ribbons hanging from the rooftops of brick buildings, creating a dense, rainbow-colored canopy over the street. The ribbons are in various colors including red, orange, yellow, green, blue, and purple. The street is lined with traditional brick buildings, some with balconies and awnings. A pharmacy is visible on the left, and a shop named 'ERA' is on the right. A bus stop sign for 'balad'in' is also present. The sky is clear and blue.
